May 22<sup>nd</sup>, 2009, Oakwood Village, Ohio.

Martin Pultrusion Group, Inc. is proud to announce that Jeff Martin, Owner and President of Martin Pultrusion Group, Inc. has been named the Brandt Goldsworthy Pultruder of the Year 2009 Award recipient by the delegates of the 2nd Global Pultrusion Conference held May 21-22, 2009 in Baltimore, Maryland.

The Award was handed to him during the Conference Dinner by the organizer of the 2nd Global Pultrusion Conference, Jaap Ketel Managing Director of Brisk Events in the Netherlands.

The argument by the nominating party for proposing Jeff Martin for this Award was: "Jeff has been a long time strong promoter of pultrusion technology in all its forms and all its applications and deserves recognition for his achievements including educating the industry with seminars organized by him".

According to Jaap, "Jeff Martin was a winner who well deserved to receive this award for the many years of hard work and dedicated service he has given to the international pultrusion industry. "

In receiving this award Jeff commented, "Brandt was a mentor to me. While we competed in a number of areas he never hesitated to share his technology nor his vision for the future of the pultrusion industry. He was a generous man and I am privileged to have tutored under him. I am honored to be associated, through this award, with Brandt's name and reputation."

Martin Pultrusion Group is the world's largest supplier of pultrusion equipment, tooling, technology and training. MPG offers a full line of pultrusion machines under the *DURapul*<sup>®</sup> trademark and precision tooling under the *DURALife*<sup>®</sup> trademark. MPG's *DURapul*<sup>®</sup> and *DURALife*<sup>®</sup> technologies have proven to greatly increase production speeds of complex shapes as well as large structural profiles. Martin Pultrusion Group is the only company worldwide that can provide the full 360 degree approach to turnkey pultrusion processing.
